Achieving Strategic Objectives

2. Phased and orderly approach – Irish market

- NAMA’s phased release of assets in Ireland in 2010-12 - in line with market demand - has made a major contribution to Irish market recovery.

- Initially, a low volume of strategically chosen assets were released to the market to elicit investor interest and price discovery. By end-2012 NAMA sold less than €1 billion in Ireland.

- As investor interest and confidence in the Irish property market grew, NAMA steadily increased the volume of available supply from 2013 onwards – cumulative sales now over €6 billion.
