About monitoring of compliance

The purpose of regulation in relation to designated centres is to safeguard vulnerable people of any age who are receiving residential care services. Regulation provides assurance to the public that people living in a designated centre are receiving a service that meets the requirements of quality standards which are underpinned by regulations. This process also seeks to ensure that the health, wellbeing and quality of life of people in residential care is promoted and protected. Regulation also has an important role in driving continuous improvement so that residents have better, safer lives.

The Health Information and Quality Authority has, among its functions under law, responsibility to regulate the quality of service provided in designated centres for children, dependent people and people with disabilities.

Regulation has two aspects:
• Registration: under Section 46(1) of the Health Act 2007 any person carrying on the business of a designated centre can only do so if the centre is registered under this Act and the person is its registered provider.
• Monitoring of compliance: the purpose of monitoring is to gather evidence on which to make judgments about the ongoing fitness of the registered provider and the provider’s compliance with the requirements and conditions of his/her registration.

Monitoring inspections take place to assess continuing compliance with the regulations and standards. They can be announced or unannounced, at any time of day or night, and take place:
• to monitor compliance with regulations and standards
• following a change in circumstances; for example, following a notification to the Health Information and Quality Authority’s Regulation Directorate that a provider has appointed a new person in charge
• arising from a number of events including information affecting the safety or well-being of residents

The findings of all monitoring inspections are set out under a maximum of 18 outcome statements. The outcomes inspected against are dependent on the purpose of the inspection. Where a monitoring inspection is to inform a decision to register or to renew the registration of a designated centre, all 18 outcomes are inspected.
Compliance with the Health Act 2007 (Care and Support of Residents in Designated Centres for Persons (Children And Adults) With Disabilities) Regulations 2013, Health Act 2007 (Registration of Designated Centres for Persons (Children and Adults with Disabilities) Regulations 2013 and the National Standards for Residential Services for Children and Adults with Disabilities.

This inspection report sets out the findings of a monitoring inspection, the purpose of which was to monitor ongoing regulatory compliance. This monitoring inspection was un-announced and took place over 1 day(s).

The inspection took place over the following dates and times
From: 18 January 2017 09:00

Summary of findings from this inspection

Background to the inspection:
This inspection report sets out the findings of an unannounced monitoring inspection, the purpose of which was to monitor the centre's compliance with the Health Act 2007 (Care and Support of Residents in Designated Centres' for Persons (Children and Adults with Disabilities) Regulations 2013. This monitoring inspection took place over one day.

How we gathered our evidence:
The inspector met with the residents, staff members on duty, person in charge and members of the management team during the inspection process. The inspector reviewed practices and documentation such as residents' personal plans, healthcare plans, guidance for staff, accident and incident reports, risk assessments, safeguarding practices, audits and policies and procedures. The person in charge was interviewed on a separate day to this inspection. The governance and management systems in place in this centre were found to be of a good standard which was reflected in the high levels of compliance found in this centre.
Description of the service:
This service was managed by the Muiriosa Foundation and consisted of two community based homes providing care to five female residents. There were two vacancies at the time of inspection. This designated centre consisted of two bungalows that were decorated, designed and maintained to a good standard and provided a good quality of care in accordance with the centres the statement of purpose. The residents were found to have an individualised service based on their needs, wishes and preferences. Residents told the inspector they liked their home and presented as happy and well cared for.

Overall judgment of our findings:
The inspector found this was a well managed centre that provided very good care to the residents living there. The standard of service provision and overall quality of care delivered to the residents was found to be person centred and of a good standard in all areas inspected.

The residents were found to be well cared for and supported to enjoy a good standard of care in accordance with their assessed needs. The requirements of the Regulations and Standards were well met in this centre. All findings are discussed in more detail in the main body of this report. Only one minor area of non compliance was found in the area of personal planning and social care provision to one resident.
Section 41(1)(c) of the Health Act 2007. Compliance with the Health Act 2007 (Care and Support of Residents in Designated Centres for Persons (Children And Adults) With Disabilities) Regulations 2013, Health Act 2007 (Registration of Designated Centres for Persons (Children and Adults with Disabilities) Regulations 2013 and the National Standards for Residential Services for Children and Adults with Disabilities.
