

NATIONAL PARKS AND WILDLIFE SERVICE

# CHECKLISTS OF PROTECTED AND THREATENED SPECIES IN IRELAND

Brian Nelson, Sinéad Cummins, Loraine Fay, Rebecca Jeffrey, Seán Kelly, Naomi Kingston, Neil Lockhart, Ferdia Marnell, David Tierney and Mike Wyse Jackson

An Roinn Cultúir,  
Oidhreacht agus Gaeltachta  
Department of Culture,  
Heritage and the Gaeltacht

National Parks and Wildlife Service (NPWS) commissions a range of reports from external contractors to provide scientific evidence and advice to assist it in its duties. The Irish Wildlife Manuals series serves as a record of work carried out or commissioned by NPWS, and is one means by which it disseminates scientific information. Others include scientific publications in peer reviewed journals. The views and recommendations presented in this report are not necessarily those of NPWS and should, therefore, not be attributed to NPWS.

Front cover, small photographs from top row:

**Coastal heath**, Howth Head, Co. Dublin, Maurice Eakin; **Red Squirrel** *Sciurus vulgaris*, Eddie Dunne, NPWS Image Library; **Marsh Fritillary** *Euphydryas aurinia*, Brian Nelson; **Puffin** *Fratercula arctica*, Mike Brown, NPWS Image Library; **Long Range and Upper Lake**, Killarney National Park, NPWS Image Library; **Limestone pavement**, Bricklieve Mountains, Co. Sligo, Andy Bleasdale; **Meadow Saffron** *Colchicum autumnale*, Lorcan Scott; **Barn Owl** *Tyto alba*, Mike Brown, NPWS Image Library; **A deep water fly trap anemone** *Phelliactis* sp., Yvonne Leahy; **Violet Crystalwort** *Riccia huebeneriana*, Robert Thompson

## Executive Summary

This volume provides checklists of the plant and animal species that are afforded legal protection in Ireland, through the Nature Directives (Birds and Habitat Directives), and the Wildlife Acts and associated Statutory Instruments (e.g. the Flora (Protection) Order). Checklists are provided for the following groups

- Plants
  - Flowering Plants (Angiosperms)
  - Ferns and Fern-allies (Pteridophytes)
  - Hornworts and Liverworts
  - Mosses
  - Algae
  - Lichens
- Vertebrates
  - Mammals
  - Birds
  - Reptiles
  - Amphibians
  - Freshwater Fish
  - Cartilaginous Fish (Sharks, skates, rays and chimaeras)
- Insects
  - Bees (Hymenoptera, Apoidea)
  - Butterflies (Lepidoptera)
  - Damselflies and Dragonflies (Odonata)
  - Macro-moths (Lepidoptera)
  - Mayflies (Ephemeroptera)
  - Stoneflies (Plecoptera)
  - Water beetles (Aquatic Coleoptera)
- Invertebrates (other than insects)
  - Crayfish
  - Non-marine Mollusca

Each checklist also includes species that have been assessed as at risk of extinction on the island of Ireland using the IUCN Regional Red List criteria. All threatened species are listed, i.e. those categorised as Critically Endangered (CR), Endangered (EN) and Vulnerable (VU). Species assessed as Regionally Extinct (RE) and Near Threatened (NT) are also given in the checklists.

In total, 1,050 species are included in the checklists.

## 1 Introduction

Ferriss *et al.* (2009) produced a taxonomic overview of the marine, terrestrial and freshwater animal species recorded from the Republic of Ireland. This produced an approximate total of 19,000 species but recognised that this figure was likely to be a significant underestimate of the true diversity of Irish fauna. FitzPatrick *et al.* (2010) provided an upper estimate of the number of plants and fungi in Ireland to be in excess of 18,000 species.

A small number of these animal and plant species are protected under Irish legislation. The principal Irish legislation is the Wildlife Act 1976. Amendments to the Wildlife Act and its Statutory Instruments have enacted and amended protection of individual species, notably in order to comply with EU legislation or other international agreements. The Birds and Habitats Directives are the primary EU legislation resulting in the legal protection of species in Ireland. The Acts and Statutory Instruments which list species within the broad taxonomic groupings are referred to in the relevant sections. See also [www.npws.ie/legislation](http://www.npws.ie/legislation). The full text of Irish legal Acts and Statutory Instruments are available from the electronic Irish Statute Book website [www.irishstatutebook.ie](http://www.irishstatutebook.ie).

The International Union for the Conservation of Nature (IUCN) coordinates the Red Listing process at the global level, defining the categories so that they are standardised across all taxa. Red Lists are also produced at regional, national and subnational levels using the same IUCN categories (IUCN 2012, 2019). Since 2009, Red Lists have been produced for the island of Ireland by the National Parks and Wildlife Service (NPWS) and the Northern Ireland Environment Agency (NIEA) using these IUCN categories. To date, 13 Red Lists have been completed. The 2006 bee Red List (FitzPatrick *et al.*, 2006) also followed the IUCN regional assessment guidelines. All these Red Lists are available to download from the website of the National Parks and Wildlife Service: [www.npws.ie/publications/red-lists](http://www.npws.ie/publications/red-lists), and readers are referred to those publications for a full explanation of the assessments and the Red Listing process. Some earlier All-Ireland or Britain and Ireland Red Data books were produced using earlier iterations of the IUCN methodology (Curtis & McGough, 1988; Stewart & Church, 1992; Whilde, 1993). These are referred to if they provide the most recent assessment of the species group.

This volume provides a listing of the plant and animal species that are legally protected in Ireland, and/or Red Listed and, therefore, assessed as in danger of extinction, and/or assessed as Near Threatened and likely to qualify for a threat category in the future. Checklists are presented by taxonomic group and species within each group are listed alphabetically by scientific name.

The treatment of bird species in this checklist differs from other animal groups. All birds are protected by Irish national legislation so the bird checklist is limited to species included on Annex I of the EU Birds Directive and those listed on the latest Birds of Conservation Concern.

It should be stressed that Red Lists and lists of species protected by legislation are subject to reassessment. Whilst the most recent (at date of publication) such lists were used to compile the checklists provided here, readers are advised to regularly check the NPWS website for updated versions. See Section 2.6 for further information.

## 2 Explanation and key to tables

This Chapter provides a key to the abbreviations used in the checklists given in Chapters 3 to 5. Species are listed alphabetically by scientific name in each table. Synonyms are provided, in parentheses, for more familiar former names. Columns, from left to right, follow the general hierarchy of EU Directives, followed by national legislation and then Red List category (All-Ireland Red Lists), or in the case of birds, Birds of Conservation Concern (BoCCI) status.

### 2.1 EU Directives

The primary legislation transposing the Nature Directives (Birds and Habitats Directives) into Irish law is the European Communities (Birds and Natural Habitats) Regulations 2011 (S.I. No. 477 of 2011), as amended.

**Table 1** Codes used for the EU Nature Directives, the Birds and Habitats Directives

Code	Explanation
<b>EU HD</b>	<b>EU Habitats Directive (Council Directive 92/43/EEC)</b>
II	Animal and plant species listed in Annex II
IV	Animal and plant species listed in Annex IV
V	Animal and plant species listed in Annex V
<b>EU BD</b>	<b>EU Birds Directive (Council Directive 09/147/EC)</b>
I	Bird species listed in Annex I

### 2.2 National legislation

The Wildlife Act 1976 (Number 39 of 1976) was amended on four occasions up to 2019, the principal being the Wildlife (Amendment) Act 2000 (Number 38 of 2000). The Flora (Protection) Order lists the plant species protected by Section 21 of the Wildlife Acts. The regulations that give rise to the protection of animal species under the Wildlife Acts are detailed in the relevant sections. See [www.npws.ie/legislation](http://www.npws.ie/legislation) for further information.

**Table 2** Codes used for national legislation

Code	Explanation
<b>WA</b>	Wildlife Act, 1976, Wildlife (Amendment) Act, 2000 and other relevant amendments
<b>FPO</b>	Flora (Protection) Order, 2015 (S.I. No. 356 of 2015)

### 2.3 All-Ireland Red Lists

The Red Lists are an assessment of the risk of extinction of each species and not just an assessment of their rarity. Threatened species are those species categorised as Critically Endangered, Endangered or Vulnerable (IUCN, 2019) – also commonly referred to as ‘Red Listed’. All Red Listed species are included in each checklist, together with all the species categorised as Regionally Extinct and Near

Threatened. Where a species is included in the checklist for other reasons, e.g. protected through European or national legislation, and an assessment has been completed, the IUCN Red List category is given. A blank in the 'Red List Status' column means that the species is within a group that has not yet had a Red List assessment.

Red Lists in Ireland refer to the whole island, i.e. including Northern Ireland, and so follow the guidelines for regional assessments (IUCN, 2012, 2019). The abbreviations used within the individual tables are as per Table 3, with the exception of the charophyte algae (see Section 3.5). See the individual Red Lists and IUCN (2012, 2019) for a full explanation of the categories.

**Table 3** IUCN Red List categories and their abbreviations

IUCN Code	IUCN Category
RE	Regionally Extinct
CR	Critically Endangered
EN	Endangered
VU	Vulnerable
NT	Near Threatened
DD	Data Deficient
LC	Least Concern
NA	Not Assessed
NE	Not Evaluated

Table 4 provides a list of the All-Ireland Red Lists published or in press since 2009. Note that the Mammals have been subject to two assessments.

**Table 4** All-Ireland Red Lists published or in press since 2009

Number	Group	Citation
No. 1	Water beetles	Foster <i>et al.</i> (2009)
No. 2	Non-marine Molluscs	Byrne <i>et al.</i> (2009)
No. 3	Terrestrial Mammals	Marnell <i>et al.</i> (2009)
No. 4	Butterflies	Regan <i>et al.</i> (2010)
No. 5	Fish, Amphibians & Reptiles	King <i>et al.</i> (2011)
No. 6	Damselflies & Dragonflies (Odonata)	Nelson <i>et al.</i> (2011)
No. 7	Mayflies (Ephemeroptera)	Kelly-Quinn & Regan (2012)
No. 8	Bryophytes	Lockhart <i>et al.</i> (2012)
No. 9	Macro-moths (Lepidoptera)	Allen (2016)
No. 10	Vascular Plants	Wyse Jackson <i>et al.</i> (2016)
No. 11	Cartilaginous fish [sharks, skates, rays and chimaeras]	Clarke <i>et al.</i> (2016)
No. 12	Mammals	Marnell <i>et al.</i> (2019)
No. 13	Stoneflies (Plecoptera)	Feeley <i>et al.</i> (in press)

## 2.4 Birds of Conservation Concern in Ireland

The current status of the regularly occurring Irish bird species is assessed using the Birds of Conservation Concern (BoCCI) guidelines (Colhoun & Cummins, 2013). The last assessment covered the period 2014-2019 and all species assessed as Amber and Red are given in the checklist.

## 2.5 Licensing

Licences, or other consents, may be required in Ireland for work or activities that could affect the species listed in these checklists, or their habitat, breeding or resting places. The NPWS website (<https://www.npws.ie/licences>) should be consulted for further information on licences that may be issued by the Minister for Culture, Heritage and the Gaeltacht.

## 2.6 Updates to the checklists

The checklists will be updated, as and when required, including when relevant legislation and Red Lists are published. The checklists may also be updated to reflect nomenclatural changes. Checklist updates will be communicated through the associated MS Excel File at [www.npws.ie/publications/irish-wildlife-manuals](http://www.npws.ie/publications/irish-wildlife-manuals). The version accompanying this publication is IWM 116 Checklists Protected and Threatened Species Version 1.0 18 Dec 2019.xlsx. Changes among versions will be documented in the **READ\_ME** Worksheet in the MS Excel File. Users are advised to regularly check the NPWS website to ensure they are using the current version. Citation of the MS Excel file name (in full) is also recommended. NPWS takes no responsibility for the use of out-of-date versions.

### 3 Plants

The checklists of species in this Chapter follow the broad interpretation of ‘plants’ included in the European Communities (Birds and Natural Habitats) Regulations 2011 (S.I. No. 477 of 2011), i.e. to include any seed plant, fern or fern-ally, lycophyte, bryophyte, charophyte, green alga, brown alga, red alga, fungus, slime-mould, lichen, actinomycete or cyanobacterium. The checklists are presented in the following order: Flowering plants (Angiosperms), Ferns and Fern-allies (Pteridophytes), Hornworts and Liverworts, Mosses, Algae, Lichens.

#### 3.1 Flowering Plants (Angiosperms)

The latest Red List assessment of the Irish flowering plants is Wyse Jackson *et al.* (2016), the previous assessment of these being by Curtis & McGough (1988). Scientific names in this checklist (Table 5) follow Stace (2019). Common names follow those given in Scannell & Synnott (1987) and, where not included there, Stace (2019), followed by Sell & Murrell (2006) and Jebb (2019). Synonyms are provided for taxa for which recent nomenclatural/taxonomic research has necessitated changes to the scientific name, the more familiar former name being in parentheses. The relevant national legislation is the Wildlife Act (1976), as amended and the Flora (Protection) Order. The Flora (Protection) Order, 2015 (S.I. No. 356 of 2015) lists 60 flowering plant species. Species assessed as Regionally Extinct (RE) in Wyse Jackson *et al.* (2016) for which native population/s have since been discovered are indicated as RE\* and those for which introduced, neophyte populations have since been discovered as RE\*[neo] (Table 5).

**Table 5** Checklist of Flowering Plants (Angiosperms)

Species name	Common name	EU HD	FPO	Red List Status
<i>Achillea maritima</i> ( <i>Otanthus maritimus</i> )	Cottonweed		FPO	CR

### 3.2 Ferns and Fern-allies (Pteridophytes)

The latest Red List assessment of the Irish ferns and fern-allies is Wyse Jackson *et al.* (2016), the previous assessment of these being by Curtis and McGough (1988). Scientific names in this checklist (Table 6) follow Stace (2019). The scientific name for Killarney Fern used in other recent works is provided in parentheses. Common names follow those given in Scannell & Synnott (1987). The relevant national legislation is the Wildlife Act (1976), as amended, and the Flora (Protection) Order. The Flora (Protection) Order, 2015 (S.I. No. 356 of 2015) lists one hybrid and seven species of ferns and fern-allies.

### 3.3 Hornworts and Liverworts

The latest Red List assessment of the Irish hornworts and liverworts is Lockhart *et al.* (2012). The relevant national legislation is the Wildlife Act (1976), as amended, and the Flora (Protection) Order. The Flora (Protection) Order, 2015 (S.I. No. 356 of 2015) lists 25 species of liverworts. Species assessed as RE in Lockhart *et al.* (2012) for which native population/s have since been discovered are indicated as RE\*. The checklist of hornworts and liverworts is given in Table 7; all species are liverworts except the hornwort *Anthoceros agrestis*, which is listed first. Nomenclature follows Lockhart *et al.* (2012).

### 3.4 Mosses

The latest Red List assessment of the Irish mosses is Lockhart *et al.* (2012). Species assessed as RE in Lockhart *et al.* (2012) for which native population/s have since been discovered are indicated as RE\*. The relevant national legislation is the Wildlife Act (1976), as amended, and the Flora (Protection) Order. The Flora (Protection) Order, 2015 (S.I. No. 356 of 2015) lists 40 species of mosses. All members of the bryophyte family Sphagnaceae in Ireland are protected under Annex V of the EU Habitats Directive (92/43/EEC). The total number of *Sphagnum* species recorded from Ireland is 30 but only those which are on the Irish Red List are included in Table 8 below. Nomenclature follows Lockhart *et al.* (2012).

**Table 8** Checklist of Mosses

### 3.5 Algae

The latest Red List assessment for the Irish charophytes is Stewart & Church (1992). Names used for charophytes in Table 9 follow Stewart & Church (1992) and Bryant & Stewart (2011). Stewart & Church (1992) used a previous IUCN assessment system and categories, which are denoted by the following abbreviations: Ex=Extinct, E=Endangered, V=Vulnerable; R=Rare; I=Indeterminate (E, V or R but not enough information to say which). Other species of algae have not been assessed. The relevant national legislation is the Wildlife Act (1976), as amended, and the Flora (Protection) Order. The Flora (Protection) Order, 2015 (S.I. No. 356 of 2015) lists two species of charophyte.

**Table 9** Checklist of Algae

Species name	Common name	EU HD	FPO	Red List Status
<i>Chara canescens</i>	Bearded Stonewort			V
<i>Chara connivens</i>	Convergent Stonewort			I
<i>Chara denudata</i>	Naked Stonewort			R
<i>Chara muscosa</i>	Mossy Stonewort			Ex

<i>Nitella spanioclema</i>	Few-branched Stonewort			I
<i>Nitella tenuissima</i>	Dwarf Stonewort			V
<i>Phymatolithon calcareum</i>	Maërl	V		
<i>Tolypella intricata</i>	Tassel Stonewort			V
<i>Tolypella prolifera</i>	Great Tassel Stonewort			Ex

### 3.6 Lichens

A Red List assessment of the Irish lichen species has not been completed. Five species of the genus *Cladonia* subgenus *Cladina* (a grouping that is not now universally accepted), Reindeer Lichens or Reindeer Mosses, occur in Ireland and are protected under Annex V of the EU Habitats Directive (92/43/EEC). The relevant national legislation is the Wildlife Act (1976), as amended, and the Flora (Protection) Order. The Flora (Protection) Order, 2015 (S.I. No. 356 of 2015) lists a single species of lichen. Nomenclature follows Smith *et al.* (2009).

**Table 10** Checklist of Lichens

Species name	Common name	EU HD	FPO

<i>Cladonia azorica</i>		V	
<i>Cladonia ciliata</i>		V	
<i>Cladonia portentosa</i>		V	
<i>Cladonia rangiferina</i>		V	
<i>Fulgensia fulgens</i>	Scrambled-egg Lichen		FPO

## 4 Vertebrates

The vertebrate checklists are presented in the following order: mammals, birds, reptiles, amphibians, freshwater fish, cartilaginous fish (sharks, skates, rays and chimaeras).

### 4.1 Mammals

The Red List of Irish terrestrial mammals was updated in 2019 (Marnell *et al.*, 2019). This assessment included seals but did not cover the cetaceans. All species of cetaceans are fully protected in Irish waters by national and European legislation. The relevant national legislation is the Wildlife Act (1976), as amended. All cetaceans and all bats are protected under Annex IV of the EU Habitats Directive, but only established Irish species are listed below. Harbour Porpoise, Common Bottlenose Dolphin, Grey Seal, Harbour Seal, Otter and Lesser Horseshoe Bat are also protected under Annex II of the EU Habitats Directive. Nomenclature follows Wilson & Reeder (2005).

<i>Ziphius cavirostris</i>	Cuvier's Beaked Whale	IV	WA	NE

## 4.2 Birds

All species of wild bird that occur naturally in Ireland are fully protected at all times by the Wildlife Act and relevant amending legislation.

This protection may be lessened by other legislation. Some bird species are listed on the Open Seasons Order. This is subject to amendment and the latest version can be found on the NPWS website at <https://www.npws.ie/legislation/irish-law/open-seasons-order>.

Similarly, all birds naturally occurring in the wild state are protected by the EU Birds Directive but derogations may reduce protection for specified reasons. Two derogations from protective measures can apply, one where birds are causing damage to crops, livestock, flora and fauna or represent a threat to public health and safety, and a second where birds represent a threat to air safety. As these are subject to annual review, the species covered are not listed here but the most recent version of these can be found on the NPWS website at <https://www.npws.ie/legislation/irish-law/eu-birds-directive-derogations>.

The checklist includes species which a) are Amber or Red on the most recent BoCCI (Colhoun & Cummins, 2013) and b) species which are on Annex I and which are reported in the Article 12 report. Some Annex I species that have been recorded in Ireland irregularly and as vagrants are, therefore, not included in this checklist. The BoCCI assessment is given for all species. The taxonomy and scientific

nomenclature used in this report follow that used for Article 12 reporting under the EU Bird's Directive. Common names follow normal usage in Ireland. The EU Bird List incorporates the taxonomic and nomenclatural changes proposed in del Hoyo & Collar (2014) and del Hoyo & Collar (2016).

**Table 12** Checklist of Birds

Species name	Common name	EU BD	BoCCI
<i>Accipiter gentilis</i>	Goshawk		Amber
<i>Accipiter nisus</i>	Sparrowhawk		Amber
<i>Acrocephalus scirpaceus</i>	Reed Warbler		Amber
<i>Actitis hypoleucos</i>	Common Sandpiper		Amber
<i>Alauda arvensis</i>	Skylark		Amber
<i>Alca torda</i>	Razorbill		Amber
<i>Alcedo atthis</i>	Kingfisher	I	Amber
<i>Anas acuta</i>	Pintail		Red
<i>Anas crecca</i>	Teal		Amber
<i>Anser albifrons flavirostris</i>	Greenland White-fronted Goose	I	Amber
<i>Anser anser</i>	Greylag Goose		Amber
<i>Anthus pratensis</i>	Meadow Pipit		Red
<i>Apus apus</i>	Swift		Amber
<i>Aquila chrysaetos</i>	Golden Eagle	I	Red
<i>Ardenna grisea</i>	Sooty Shearwater		Red
<i>Asio flammeus</i>	Short-eared Owl	I	Amber
<i>Aythya ferina</i>	Pochard		Red
<i>Aythya fuligula</i>	Tufted Duck		Red
<i>Aythya marila</i>	Scaup		Amber
<i>Branta bernicla hrota</i>	Light-bellied Brent Goose		Amber
<i>Branta leucopsis</i>	Barnacle Goose	I	Amber
<i>Bucephala clangula</i>	Goldeneye		Red
<i>Calidris alpina alpina</i>	Dunlin		Red
<i>Calidris alpina schinzii</i>	Dunlin	I	Red
<i>Calidris canutus</i>	Knot		Amber
<i>Calidris pugnax (Philomachus pugnax)</i>	Ruff	I	Amber
<i>Calonectris borealis (Calonectris diomedea)</i>	Cory's Shearwater	I	Amber
<i>Caprimulgus europaeus</i>	Nightjar	I	Red
<i>Catharacta skua</i>	Great Skua		Amber
<i>Cephus grylle</i>	Black Guillemot		Amber
<i>Charadrius dubius</i>	Little Ringed Plover		Amber
<i>Chloris chloris</i>	Greenfinch		Amber
<i>Circus aeruginosus</i>	Marsh Harrier	I	Amber
<i>Circus cyaneus</i>	Hen Harrier	I	Amber
<i>Clangula hyemalis</i>	Long-tailed Duck		Red
<i>Columba oenas</i>	Stock Dove		Amber
<i>Coturnix coturnix</i>	Quail		Red

Species name	Common name	EU BD	BoCCI
<i>Crex crex</i>	Corncrake	I	Red
<i>Cygnus columbianus bewickii</i>	Bewick's Swan	I	Red
<i>Cygnus cygnus</i>	Whooper Swan	I	Amber
<i>Cygnus olor</i>	Mute Swan		Amber
<i>Delichon urbicum</i>	House Martin		Amber
<i>Dendrocopos major</i>	Great Spotted Woodpecker		Amber
<i>Egretta garzetta</i>	Little Egret	I	Green
<i>Emberiza citrinella</i>	Yellowhammer		Red
<i>Erithacus rubecula</i>	Robin		Amber
<i>Falco columbarius</i>	Merlin	I	Amber
<i>Falco peregrinus</i>	Peregrine	I	Green
<i>Falco tinnunculus</i>	Kestrel		Amber
<i>Ficedula hypoleuca</i>	Pied Flycatcher		Amber
<i>Fratercula arctica</i>	Puffin		Amber
<i>Gallinago gallinago</i>	Snipe		Amber
<i>Gavia arctica</i>	Black-throated Diver	I	Amber
<i>Gavia immer</i>	Great Northern Diver	I	Amber
<i>Gavia stellata</i>	Red-throated Diver	I	Amber
<i>Haematopus ostralegus</i>	Oystercatcher		Amber
<i>Haliaeetus albicilla</i>	White-tailed Eagle	I	Red
<i>Hirundo rustica</i>	Swallow		Amber
<i>Hydrobates leucorhous (Oceanodroma leucorhoa)</i>	Leach's Storm Petrel	I	Red
<i>Hydrobates pelagicus</i>	Storm Petrel	I	Amber
<i>Hydrocoloeus minutus (Larus minutus)</i>	Little Gull	I	Amber
<i>Lagopus lagopus</i>	Red Grouse		Red
<i>Larus argentatus</i>	Herring Gull		Red
<i>Larus canus</i>	Common Gull		Amber
<i>Larus fuscus</i>	Lesser Black-backed Gull		Amber
<i>Larus marinus</i>	Great Black-backed Gull		Amber
<i>Larus melanocephalus</i>	Mediterranean Gull	I	Amber
<i>Larus ridibundus</i>	Black-headed Gull		Red
<i>Limosa lapponica</i>	Bar-tailed Godwit	I	Amber
<i>Limosa limosa</i>	Black-tailed Godwit		Amber
<i>Linaria cannabina</i>	Linnet		Amber
<i>Linaria flavirostris</i>	Twite		Red
<i>Lymnocyptes minimus</i>	Jack Snipe		Amber
<i>Mareca penelope</i>	Wigeon		Red
<i>Mareca strepera</i>	Gadwall		Amber
<i>Melanitta fusca</i>	Velvet Scoter		Red
<i>Melanitta nigra</i>	Common Scoter		Red
<i>Mergellus albellus</i>	Smew	I	Amber
<i>Mergus merganser</i>	Goosander		Amber

Species name	Common name	EU BD	BoCCI
<i>Milvus milvus</i>	Red Kite	I	Amber
<i>Morus bassanus</i>	Gannet		Amber
<i>Motacilla cinerea</i>	Grey Wagtail		Red
<i>Motacilla flava</i>	Yellow Wagtail		Amber
<i>Muscicapa striata</i>	Spotted Flycatcher		Amber
<i>Numenius arquata</i>	Curlew		Red
<i>Oenanthe oenanthe</i>	Wheatear		Amber
<i>Passer domesticus</i>	House Sparrow		Amber
<i>Passer montanus</i>	Tree Sparrow		Amber
<i>Perdix perdix</i>	Grey Partridge		Red
<i>Phalacrocorax aristotelis</i>	Shag		Amber
<i>Phalacrocorax carbo</i>	Cormorant		Amber
<i>Phalaropus lobatus</i>	Red-necked Phalarope	I	Red
<i>Phoenicurus phoenicurus</i>	Common Redstart		Amber
<i>Phylloscopus sibilatrix</i>	Wood Warbler		Amber
<i>Pluvialis apricaria</i>	Golden Plover	I	Red
<i>Pluvialis squatarola</i>	Grey Plover		Amber
<i>Podiceps auritus</i>	Slavonian Grebe	I	Amber
<i>Podiceps cristatus</i>	Great Crested Grebe		Amber
<i>Podiceps nigricollis</i>	Black-necked Grebe		Red
<i>Porzana porzana</i>	Spotted Crake	I	Amber
<i>Puffinus mauretanicus</i>	Balearic Shearwater	I	Red
<i>Puffinus puffinus</i>	Manx Shearwater		Amber
<i>Pyrhhorax pyrrhhorax</i>	Chough	I	Amber
<i>Regulus regulus</i>	Goldcrest		Amber
<i>Riparia riparia</i>	Sand Martin		Amber
<i>Rissa tridactyla</i>	Kittiwake		Amber
<i>Saxicola rubetra</i>	Whinchat		Red
<i>Saxicola torquatus</i>	Stonechat		Amber
<i>Scolopax rusticola</i>	Woodcock		Red
<i>Somateria mollissima</i>	Eider		Amber
<i>Spatula clypeata</i>	Shoveler		Red
<i>Spatula querquedula</i>	Garganey		Amber
<i>Sterna dougallii</i>	Roseate Tern	I	Amber
<i>Sterna hirundo</i>	Common Tern	I	Amber
<i>Sterna paradisaea</i>	Arctic Tern	I	Amber
<i>Sternula albifrons</i>	Little Tern	I	Amber
<i>Streptopelia turtur</i>	Turtle Dove		Amber
<i>Sturnus vulgaris</i>	Starling		Amber
<i>Sylvia curruca</i>	Lesser Whitethroat		Amber
<i>Tachybaptus ruficollis</i>	Little Grebe		Amber
<i>Tadorna tadorna</i>	Shelduck		Amber

Species name	Common name	EU BD	BoCCI
<i>Thalasseus sandvicensis</i> ( <i>Sterna sandvicensis</i> )	Sandwich Tern	I	Amber
<i>Tringa erythropus</i>	Spotted Redshank		Amber
<i>Tringa glareola</i>	Wood Sandpiper	I	Amber
<i>Tringa totanus</i>	Redshank		Red
<i>Turdus torquatus</i>	Ring Ouzel		Red
<i>Turdus viscivorus</i>	Mistle Thrush		Amber
<i>Tyto alba</i>	Barn Owl		Red
<i>Uria aalge</i>	Guillemot		Amber
<i>Vanellus vanellus</i>	Lapwing		Red

### 4.3 Reptiles

Nomenclature and the latest Red List assessment of the Irish marine and terrestrial reptiles are from King *et al.* (2011). The relevant national legislation is the Wildlife Act (1976), as amended. The Common Lizard was added to the Wildlife Act by regulations made in S.I. No. 282 of 1980, and marine turtles were added by S.I. No. 112 of 1990.

**Table 13** Checklist of Reptiles

Species name	Common name	EU HD	WA	Red List Status
<i>Caretta caretta</i>	Loggerhead Turtle	II IV	WA	NA
<i>Dermochelys coriacea</i>	Leatherback Turtle	IV	WA	LC
<i>Eretmochelys imbricata</i>	Hawksbill Turtle	IV	WA	NA
<i>Lepidochelys kempii</i>	Kemp's Ridley Turtle	IV	WA	NA
<i>Zootoca vivipara</i> ( <i>Lacerta vivipara</i> )	Common Lizard		WA	LC

### 4.4 Amphibians

Nomenclature and the latest Red List assessment of the Irish amphibians are from King *et al.* (2011). The relevant national legislation is the Wildlife Act (1976), as amended. The Common Frog and Common Newt were added to the Wildlife Act, 1976 by regulations made in S.I. No. 282 of 1980.

**Table 14** Checklist of Amphibians

Species name	Common name	EU HD	WA	Red List Status
<i>Epidalea calamita</i> ( <i>Bufo calamita</i> )	Natterjack Toad	IV	WA	EN
<i>Lissotriton vulgaris</i> ( <i>Triturus vulgaris</i> )	Common Newt		WA	LC
<i>Rana temporaria</i>	Common Frog	V	WA	LC

## 4.5 Freshwater Fish

Nomenclature and the latest Red List assessment of the Irish freshwater fish are from King *et al.* (2011). The EU HD Annex provisions only refers to Atlantic Salmon *Salmo salar* in freshwater. Many freshwater fish species are listed on the Wildlife (Fish and Aquatic Invertebrate Animals) (Exclusion) Regulations, 2001 (S.I. No. 372 of 2001), which excludes them from the provisions of the Wildlife (Amendment) Act, 2000.

**Table 15** Checklist of Freshwater Fish

Species name	Common name	EU HD		Red List Status
<i>Alosa alosa</i>	Allis Shad	II	V	DD
<i>Alosa fallax</i>	Twaite Shad	II	V	VU
<i>Alosa fallax killarnensis</i>	Killarney Shad	II	V	VU
<i>Anguilla anguilla</i>	European Eel			CR
<i>Coregonus autumnalis</i>	Pollan		V	VU
<i>Lampetra fluviatilis</i>	River Lamprey	II	V	LC
<i>Lampetra planeri</i>	Brook Lamprey	II		LC
<i>Petromyzon marinus</i>	Sea Lamprey	II		NT
<i>Salmo salar</i>	Atlantic Salmon	II	V	VU
<i>Salvelinus alpinus</i>	Arctic Charr			VU

## 4.6 Cartilaginous Fish (Sharks, Skates, Rays and Chimaeras)

Nomenclature and the latest Red List assessment of the Irish marine cartilaginous fish are from Clarke *et al.* (2016). Many marine cartilaginous fish are listed on the Wildlife (Fish and Aquatic Invertebrate Animals) (Exclusion) Regulations, 2001 (S.I. No. 372 of 2001), which excludes them from the provisions of the Wildlife (Amendment) Act, 2000.

**Table 16** Checklist of Cartilaginous Fish (Sharks, Skates, Rays and Chimaeras)

Species name	Common name	Red List Status
<i>Apristurus manis</i>	Ghost Shark	NT
<i>Apristurus melanoasper</i>	Black Roughscale Catshark	NT
<i>Apristurus microps</i>	Smalleye Catshark	NT
<i>Centrophorus squamosus</i>	Leafscale Gulper Shark	EN

<i>Tetronarce nobiliana</i>	Electric Ray	NT

## 5 Insects

Insect checklists are provided in alphabetical order, by the group's common name.

### 5.1 Bees (Hymenoptera, Apoidea)

The latest Red List assessment of the Irish bees is FitzPatrick *et al.* (2006). Nomenclature, both scientific and common names, follows Falk & Lewington (2015). Species assessed as RE in FitzPatrick *et al.* (2006) for which native population/s have since been discovered are indicated as RE\*.

**Table 17** Checklist of Bees (Hymenoptera, Apoidea)

Species name	Common name	Red List Status
<i>Andrena angustior</i>	Groove-faced Mining Bee	VU
<i>Andrena barbilabris</i>	Sandpit Mining Bee	NT
<i>Andrena coitana</i>	Small Flecked Mining Bee	VU
<i>Andrena denticulata</i>	Grey-banded Mining Bee	VU

## 6 Invertebrates (other than insects)

Checklists are currently provided for crayfish and non-marine Mollusca.

### 6.1 Crayfish (Astacoidea)

The relevant national legislation is the Wildlife Act (1976), as amended. White-clawed Crayfish *Austropotamobius pallipes* was added to the Wildlife Act, 1976 by regulations made in S.I. No. 112 of 1990. Nomenclature follows the Habitats Directive (Annex II).

**Table 24** Checklist of Other invertebrates

Species name	Common name	EU HD	WA
<i>Austropotamobius pallipes</i>	White-clawed Crayfish	II V	WA

### 6.2 Non-marine Mollusca

The latest Red List assessment of the Irish non-marine Mollusca is Byrne *et al.* (2009). The relevant national legislation is the Wildlife Act (1976), as amended. Freshwater Pearl Mussel and Kerry Slug were added to the Wildlife Act, 1976 by regulations made in S.I. No. 112 of 1990. Nomenclature follows the Red List (Byrne *et al.*, 2009). Genetic research has since placed the Nore Pearl Mussel (*Margaritifera durrovensis*) within the *Margaritifera margaritifera* taxon (Feind *et al.*, 2016; Geist *et al.*, 2018).

**Table 25** Checklist of Non-marine Mollusca

Species name	Common name	EU HD	WA	Red List Status
<i>Acanthinula aculeata</i>	Prickly Snail			NT
<i>Acicula fusca</i>	Point Snail			VU
<i>Anisus vortex</i>	Whirlpool Ram's Horn			VU
<i>Anodonta anatina</i>	Duck Mussel			VU
<i>Anodonta cygnea</i>	Swan Mussel			VU
<i>Aplexa hypnorum</i>	Moss Bladder Snail			VU
<i>Arianta arbustorum</i>	Copse Snail			VU
<i>Ashfordia granulata</i>	Silky Snail			NT
<i>Balea perversa</i>	Wall Snail			VU
<i>Cecilioides acicula</i>	Blind Snail			VU
<i>Cochlodina laminata</i>	Plaited Door Snail			VU
<i>Ecrobia ventrosa</i>	Spire Snail			VU
<i>Geomalacus maculosus</i>	Kerry Slug	II IV	WA	LC
<i>Gyraulus laevis</i>	Smooth Ramshorn			EN
<i>Helicella itala</i>	Heath Snail			VU
<i>Helicigona lapicida</i>	Lapidary Snail			RE
<i>Hydrobia acuta</i>				EN
<i>Leiostyla anglica</i>	English Chrysalis Snail			VU

Species name	Common name	EU HD	WA	Red List Status
<i>Limax cinereoniger</i>	Ash-black Slug			VU
