Last updated on 7 December 2020

An additional €1.7 million is being provided by the Government to support community and voluntary groups to deal with COVID-19.

The funding, under the COVID-19 Emergency Fund, is in recognition of the important role played by community and voluntary organisations across the country as we head towards the Christmas period.

The additional investment was confirmed today by Minister for Rural and Community Development, Heather Humphreys TD, and Minister of State with responsibility for Community Development and Charities, Joe O’Brien TD.

The funding will enable groups to embrace the Government’s ‘Keep Well’ campaign which focusses on the themes of staying connected, switching off and being creative, and minding your mood.

It brings the total funding provided under the COVID-19 Emergency Fund to €4.2 million in 2020.

The funding will be used to assist local community and voluntary groups to adapt to COVID-19, for example:

- Allow for changes to premises to provide for social distancing;
- Funding for on-line activities;
- Provision of critical social supports.

Announcing the COVID-19 Emergency Fund, Minister Humphreys said:

“COVID-19 has brought the term ‘Community’ to the fore. I want the community spirit that we have shown in recent months to remain post COVID.

“The little things like checking in on a neighbour makes such a difference. Our community and voluntary groups have played a crucial role during this Pandemic and it’s so important that we support them.”
“That’s why I’m delighted we are providing this additional funding to support our community and voluntary groups who are in turn assisting significant numbers of vulnerable people to get through this crisis.”

**Also welcoming the funding, Minister O’Brien said:**

“2020 has been the most difficult year imaginable. And yet, every step of the way, our community and voluntary groups have gone above and beyond to show their true colours.

“These individual grants will generally be modest in nature, however it is expected that higher amounts will be provided where the need is greatest.”

The Department of Rural and Community Development has allocated a total of €1.7 million in funding to Local Authority areas, and Local Community Development Committees (LCDCs) will now administer the funding to groups in each area.

Groups should check with their LCDC or their Local Authority for further details.

- The funding provided to each Local Authority area is outlined in the above table. The 
funding has been allocated by providing a baseline amount to each area and allocating 
the remainder based on the relative population and disadvantage level in each area. 
This methodology uses census figures and the Pobal Hasse deprivation index.
- The funding is administered locally by Local Community Development Committees 
(LCDCs) across the country, with support from their Local Authority. Applications 
for funding can be made to the relevant LCDC.
- The grants under this fund to assist local community and voluntary groups to adapt 
their services and operations to fit the new COVID-19 reality are consistent with an 
action assigned to our Department under the Resilience and Recovery 2020-2021: 
Plan for Living with COVID-19. It will seek to assist their participation in the 
campaign, in particular with the three themes that are most reliant on their 
involvement: staying connected, switching off and being creative, and minding 
your mood.
- The fund provides grants to help animate community groups to enable them to 
become more involved in the Government's 'Keep Well' campaign. Further details 
on this campaign are available here.
