Applications for Patents

From 16/06/2023 to 29/06/2023

The names of applicants are in alphabetical order. In the case of joint applicants, each name is given independently. The title of the invention should not be regarded as an exhaustive indication of the subject-matter. The date immediately following the title is that on which the application was filed; in the case of a divisional application, the filing date of the earlier application is added within parentheses. Where an application has been filed pursuant to Section 127A, the filing date shall be either the date of the originating PCT filing, where applicable, or the date directed by the Controller. Where the application invokes the Paris Convention, the Convention country and priority date(s) claimed are given in square brackets. Where an application claimed the priority of an earlier application filed at this Office, this information is given within the square brackets. The number is that of the application and should be used for correspondence purposes up to the date of grant of a patent. The letter S preceding the number indicates that the application is for a short-term patent. A new number will be given when a patent is granted and this new number should be quoted in all correspondence subsequent to grant.

Pitchorputt Golf Club incorporates a two in one golf club head, combining a golf club putter face and a wedge iron pitching face within the club head. Both designs include a shaft handle with a mechanical switch to rotate the club head 180 degrees and lock it into position. This switch enables a golf player to twist and lock the required club head face for play, when and where required. The switch also enables the club to be used by both right and left hand players. Aesthetic design finishes can be adapted to suit. Regulated and recommended club head and shaft handle dimensions, angles, loft and lie ground angles can also be applied. All dimensions and angles as shown on all images, as submitted with this application, are for illustration purposes only.
