Conference report

‘Developing the Anti-Poverty Agenda: A shared Focus’

April 2007
Background and context of ‘Developing the Anti-Poverty agenda: a shared focus’ April 2007 Poverty Conference

Addressing poverty and the detrimental effect it has on the health and wellbeing of the 300,000 people it affects in Northern Ireland has been one of the 7 Key Objectives of the Regional Public Health Strategy ‘Investing for Health’. The April 2007 Conference was sponsored and initiated by the Eastern Investing for Health Partnership Team in order to identify priorities and potential actions on the anti-poverty agenda.

In order to maximise the expertise and experience available on the poverty theme two other key stakeholder organisations, the Institute of Public Health in Ireland and the Northern Ireland Anti-Poverty Network agreed to co-organise the Conference. Both Organisations have significant expertise and knowledge of both the statistical/research dimensions of poverty and have informed perspectives of what in policy and practical terms can be done to address poverty and the negative impacts it has on the lives of the people it affects. The attendance and active participation of over 120 people representing 90 organisations from across all sectors at the conference reflects the level of priority and willingness of communities and stakeholders to come together to debate anti-poverty approaches.

The objectives of the conference were to;

- Provide information on the ‘Investing for Health’ and ‘Lifetime Opportunities Anti-Poverty’ Strategies and maximise the potential for practical action on health inequalities

- Facilitate expert input and discussion with key stakeholders to progress the Anti-Poverty agenda at local, policy and strategic levels

- Influence the focus and content of the OFMDFM led Anti-Poverty Strategy Action Plans.

The first two of these objectives were addressed by expert inputs from Dr Michael McBride, Chief Medical Officer, DHSSPS; Dr Helen McAvoy, Institute of Public Health in Ireland; Helen Johnston from Combat Poverty Agency; Frances Dowds from the NI Anti-Poverty Network and Goretti Hogan, University of Ulster. In
addition background data was prepared by staff from the NI Anti-Poverty Network, Save the Children, Lifestart Foundation and Age Concern on poverty statistics/issues affecting the 4 Age Groups identified as a focus for the Northern Ireland Anti-Poverty Strategy i.e. early years, children and young people, working age adults and older people. The 120 participants at the conference were facilitated in workshop discussions to identify a set of specified recommendations that are contained in the conference report.

The Eastern Investing for Health Partnership Team, the Institute of Public Health in Ireland and the NI Anti-Poverty Network will disseminate this conference report widely. In addition the conference report and recommendations for action will be discussed and shared with the Anti-Poverty Team at OFMDFM, the Ministerial led Forum on Poverty and Social Exclusion and the Northern Ireland Assembly. It is hoped that the priorities and recommendations for action can be included within the Regional Action Plan due to be produced as part of the implementation of the OFMDFM Lifetime Opportunities Anti-Poverty Strategy. Where specific anti-poverty actions can be undertaken, particularly at the locality level, the four Eastern Area Investing for Health Managers will explore options for implementation. Organisations who are interested in working with the Eastern Investing for Health Team to take forward actions on the anti-poverty agenda are invited to make contact and/or list their interest/current work through the www.wellnet-ni.com website.

Anne Lynch
Director (Designate) of Strategic Planning and Regional Commissioning
Health and Social Care Authority
### Recommendation: Early Years

<table>
<thead>
<tr>
<th>Recommended action</th>
<th>Who</th>
<th>Success measures</th>
</tr>
</thead>
<tbody>
<tr>
<td>To prioritise child poverty within the Comprehensive Spending Review</td>
<td>OFMDFM</td>
<td>1.5% allocation of GDP to Early Years</td>
</tr>
<tr>
<td></td>
<td>Political parties, DFP, NI Assembla</td>
<td>Guaranteed family income</td>
</tr>
<tr>
<td>To expand and develop universal home based parenting support programmes to improve school readiness</td>
<td>DHSSPS, DE, Community and Voluntary Sector</td>
<td>Improved children’s health, Improved school readiness and accreditation</td>
</tr>
<tr>
<td>To promote parenting skills in secondary school curriculum</td>
<td>DE</td>
<td>Reduction in teenage pregnancy</td>
</tr>
<tr>
<td>To infant/toddler proof the lived environment</td>
<td></td>
<td></td>
</tr>
<tr>
<td>To hold Government to account for the degree of joined up policy implementation</td>
<td></td>
<td>Poverty a key theme across all government departments, Poverty actions costed in the Comprehensive Spending review bids from all government departments</td>
</tr>
<tr>
<td>To enact legislation to allow parents to stay at home</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Additional issues listed in Early Years workshop**

- Need for pro-active leadership from Government and state employers to implement flexible and innovative working arrangements for parents
- Need for longer term funding for early years community and voluntary sector to prevent ‘short-termism’.
- Promotion of accountability for progress/lack of progress on targets by all sectors
**Recommendation: Children and Young People**

<table>
<thead>
<tr>
<th>Recommended action</th>
<th>Who</th>
<th>Success measures</th>
</tr>
</thead>
<tbody>
<tr>
<td>Build capacity within government departments to facilitate participation of children and young people</td>
<td>Government Departments OFMDFM Local Government</td>
<td>Criteria for meaningful involvement of children and young people built into Government led funding schemes</td>
</tr>
<tr>
<td>Free universal child care to parents on benefits</td>
<td>DEL, DFP DHSSPS DE NI Assembly</td>
<td>Reduction in long term unemployed Increased access to employment</td>
</tr>
<tr>
<td>Increased development of schools as a key resource in developing life skills, improving sexual health, safe play and support for parents</td>
<td>DE</td>
<td>Reduction in teenage pregnancy. Development and further roll out of Extended Schools initiative</td>
</tr>
<tr>
<td>Investment schemes targeting children and young people in poverty are long term, flexible, strategic and involve the participation of children and young people</td>
<td>Funders DFP NI Assembly</td>
<td></td>
</tr>
</tbody>
</table>

**Additional issues listed in Children and Young Peoples workshop**

- Need for all to recognise the impact of the Northern Ireland Conflict on mental health and well-being on young people
- Costs associated with third level education on families experiencing poverty can be a disincentive for young people considering University.
### Recommendation: Working Age Adults

<table>
<thead>
<tr>
<th>Recommended action</th>
<th>Who</th>
<th>Success measures</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fast track service provision focused for major areas of illness in Northern Ireland for people from disadvantaged areas and those groups identified as being at greatest risk of poverty. (women, carers, people with a disability and long term limiting illness)</td>
<td>DHSSPS OFMDFM</td>
<td>Reduction in health inequalities between the highest and lowest socioeconomic groups leading to reduction of poverty and social exclusion</td>
</tr>
<tr>
<td>Address impact of conflict on mental and physical health of working age adults</td>
<td>DHSSPS OFMDFM</td>
<td>Reduction in numbers presenting as physically or mentally unwell</td>
</tr>
<tr>
<td>Take account of the mental health needs of working age economically inactive people who want to work flexibly</td>
<td>DHSSPS OFMDFM DEL</td>
<td>Increase in flexible employment for people with mental health needs</td>
</tr>
<tr>
<td>Resource the implementation of the Bamford</td>
<td>DHSSPS NI Assembly</td>
<td>Increased service provision for people with learning disabilities and mental health needs Increased social inclusion of such groups. Reduction in stigma associated with mental health problems &amp; learning difficulties</td>
</tr>
<tr>
<td>Ensure the provision of free/affordable and accessible public transport to the economically inactive and to people seeking employment</td>
<td>DRD</td>
<td>Greater mobility for people experiencing disadvantage and increased numbers entering employment Reduction in social exclusion among PEP*</td>
</tr>
<tr>
<td>Increase investment in affordable social housing</td>
<td>DSD OFMDFM</td>
<td>Affordable housing is a key determinant of health. Increased provision of affordable social housing improved health and well being of individuals and families.</td>
</tr>
<tr>
<td>Caring services: Increase support and relief services for carers working in or out of the home. Increase provision of affordable and accessible local childcare.</td>
<td>DHSSPS OFMDFM</td>
<td>Greater mental and physical well-being among caring population of NI. Increase in numbers returning to work, part time &amp; full time. Increase in family well being.</td>
</tr>
</tbody>
</table>

* PEP People Experiencing Poverty

**Additional Issues listed in Working Age workshop**

- There should be continued investment in community based preventative health care.
- The Welfare State (health service benefit provision) must be adequately resourced to protect the vulnerable and unwell at times of need.
- Health and safety at work should be prioritised.
- Accessible information on benefit and entitlements for working age adults should be a government priority.
- There needs to be a joined up approach to skills and education with greater access for young and older working adults to be trained in trades where there are skills shortages.
- Government departments should work more closely together on shared poverty and health targets.
**Recommendation: Older People**

<table>
<thead>
<tr>
<th>Recommended action</th>
<th>Who</th>
<th>Success measures</th>
</tr>
</thead>
<tbody>
<tr>
<td>Free personal care for older people</td>
<td>NI Assembly</td>
<td></td>
</tr>
<tr>
<td>Appoint a Commissioner for older people</td>
<td>OFMDFM NI Assembly</td>
<td>Commissioner appointed and in post Development of strategic planning on range of strategies which should bring benefits for older people</td>
</tr>
<tr>
<td>Increased investment for preventative health programmes for older people</td>
<td>DHSSPS</td>
<td>Increase in numbers of older people accessing preventative health programmes</td>
</tr>
<tr>
<td>Improvement of access to services-transport/cultural/social/information</td>
<td>All Government Departments</td>
<td>Increased uptake of services Increase level of information about existing services</td>
</tr>
<tr>
<td>Increase income for older people</td>
<td>NI Assembly</td>
<td>Increased pensions Increased fuel allowance Increases benefits uptake</td>
</tr>
</tbody>
</table>

**Additional issues listed in Older People’s workshop**
- Need to benchmark/map what is happening in relation to poverty and older people
- Increase social prescribing e.g. to access leisure centres/alternative therapies etc
• Maximise the level of support for independent living e.g. domiciliary care, carers support, housing and home safety
• Development of social enterprise opportunities for and by young people
• Ensure that resources are skewed to focus on those most in need.
Appendices

Appendix 1 Delegate list
