Citation: Coonan, B., Curley M. and Ryan C. 2024. Long-term rainfall averages for Ireland, 1991-2020. Climatological Note No. 22. Met Éireann

Publication date: July 2024

Executive Summary: This report describes the production of Ireland's monthly, seasonal and annual rainfall averages for the period 1991–2020. These averages have been calculated for each rainfall observing station in Met Éireann's climate data archive and for a high resolution 1 km x 1 km grid of points covering Ireland.
