**Citation:** Coonan, B., Curley M. and Ryan C. 2024. Long-term air temperature averages for Ireland, 1991-2020. Climatological Note No. 22. Met Éireann

**Publication date:** July 2024

**Executive Summary:** This report describes the production of Ireland's monthly, seasonal, and annual mean, maximum and minimum air temperature averages for the period 1991–2020. These averages have been calculated for climate observing stations in Met Éireann's climate data archive and for a high resolution 1 km by 1 km grid of points covering Ireland.
