About the designated centre

The following information has been submitted by the registered provider and describes the service they provide.

The designated centre is a four bedded residential neuro-rehabilitation service. The centre was located in a city suburb and provides accommodation to four adults with an acquired brain injury. The house is occupied seven days a week and can accommodate four adults male or female over 18 years. The designated centre is managed by a team comprised of rehabilitation assistants who were managed by the local service manager. The service aims to provide individualised, community-based supports, designed to maximise the quality of life of each person living with an acquired brain injury while fostering autonomy, personal growth and development.

How we inspect

This inspection was carried out to assess compliance with the Health Act 2007 (as amended), the Health Act 2007 (Care and Support of Residents in Designated Centres for Persons (Children and Adults) with Disabilities) Regulations 2013, and the Health Act 2007 (Registration of Designated Centres for Persons (Children and Adults with Disabilities) Regulations 2013 - 2015 as amended. To prepare for this inspection the inspector of social services (**hereafter referred to as inspectors**) reviewed all information about this centre. This included any previous inspection findings, registration information, information submitted by the provider or person in charge and other unsolicited information since the last inspection.

As part of our inspection, where possible, we:

- speak with residents and the people who visit them to find out their experience of the service,
- talk with staff and management to find out how they plan, deliver and monitor the care and support services that are provided to people who live in the centre,
- observe practice and daily life to see if it reflects what people tell us,
- review documents to see if appropriate records are kept and that they reflect practice and what people tell us.

In order to summarise our inspection findings and to describe how well a service is doing, we group and report on the regulations under two dimensions of:

1. Capacity and capability of the service:

This section describes the leadership and management of the centre and how effective it is in ensuring that a good quality and safe service is being provided. It outlines how people who work in the centre are recruited and trained and whether there are appropriate systems and processes in place to underpin the safe delivery and oversight of the service.

2. Quality and safety of the service:

This section describes the care and support people receive and if it was of a good quality and ensured people were safe. It includes information about the care and supports available for people and the environment in which they live.

A full list of all regulations and the dimension they are reported under can be seen in Appendix 1.

This inspection was carried out during the following times:

What residents told us and what inspectors observed

The inspector met with one resident as the remaining three residents were out on a day activity. The outing had been planned which was evident from notes regarding times to leave, how much money to take etc. The resident with whom the inspector spoke was very comfortable in her home. She was returning from home after a family wedding and told the inspector and staff all about it. She was very comfortable showing staff members photos and had been supported by staff to buy her outfit for the wedding and a staff member went with her on the day of the wedding also. The resident spoke very highly of staff and the inspector observed very respectful and positive interactions between them. The resident also informed the inspector that she felt happy and safe in her home. The resident was tired after the weekend away and the staff were very good at interpreting the residents needs and enquired if she wanted to have a rest after her lunch. The resident appeared very happy with the care and support provided by staff.

Capacity and capability

Governance and management systems were in place in this centre, and there were clear lines of accountability and responsibility.

The centre had a clearly defined structure which included a suitably qualified and experienced person in charge. The person in charge was present regularly and was always accessible to the staff. They had good oversight of the operational management of the centre and was effective in their role as person in charge. In addition, the provider completed unannounced visits and an annual review of the care and support provided to the residents. The inspector noted that these reports were comprehensive and recommendations for service improvements were followed up in a timely manner.

Staff spoken with on the day of inspection had a good knowledge of the residents' needs. Interactions observed with residents, showed that care and support was provided in-line with the residents' assessed needs and in a person centred manner. The inspector observed staff members supporting a resident with daily activities and the resident was facilitated in a dignified manner that promoted their independence. The inspector noted that staff members were very good at interpreting the residents needs and supported them with their individual needs.

The person in charge had a training matrix in place for the inspector to view. The inspector found that all staff had received mandatory training and that there was refresher training scheduled as necessary. The provider has ensured that the person in charge was in receipt of supervision and this cascaded to the staff in the

designated centre.

The inspector viewed actual and planned rosters and these were in-line with the statement of purpose.

The person in charge notified the Office of the Chief Inspector of incidents that occurred in the designated centre.

The registered provider had ensured systems were in place for the receipt and management of complaints. There were no open complaints at the time of inspection. Where complaints had been received, the provider had been responsive ensuring that the complaint was investigated and the outcome recorded.

The registered provider maintained a directory of residents in the designated centre which included the information specified in Schedule 3. The registered provider also maintained records of the information and documents in relation to staff specified in Schedule 2

Quality and safety

Overall, the inspector observed that the quality and safety of the service received by the residents' was very good. The health and well-being of the residents' was promoted in the centre. The residents were noted to be very happy in their home and with the staff and management working in the designated centre.

The inspector found that the assessments of the residents' health and social care needs were completed to a good standard and were effective in meeting the needs of the residents. There was a staff member (a key worker) identified to support each resident.

The residents who had communication assessments were supported and assisted to communicate in accordance with their needs. All residents had access to television, newspapers and radio.

The provider had systems in place to ensure that residents were safeguarded against potential abuse and staff were found to have a good knowledge of the procedures used to protect residents' from abuse. Staff were facilitated with training

in the safeguarding of vulnerable persons.

The centre had a good medicines management system to support the residents' needs. There was evidence of review of residents' medical and medicines needs and self administration of medication assessments were completed with residents.

The residents were supported to spend their day in a manner that was meaningful and purposeful for them. This included availing of day service, community facilities and amenities. The residents had access to recreation facilities and opportunities to participate in activities in accordance with their interests, capacities and developmental needs. The residents regularly went to their local cinema, cafes and restaurants. There were supports in place for residents to develop and maintain personal relationships in accordance with their wishes.

Fire safety records were reviewed. These indicated that staff were undertaking routine checks of escape routes and fire safety equipment. Routine servicing of fire safety equipment, of fire detection, alarm systems and of emergency lighting was in place. Records of fire drills indicated that they were taking place approximately every six to eight weeks.

The residents had their own bedrooms, access to shared spaces and adequate room for family or friends to visit at each resident's request. The inspector observed that the residents' home was warm and personalised with photographs and other items. The house was maintained to a good standard however the kitchen, utility, and dining room were unclean. The person in charge committed to addressing this immediately.

There was evidence that any incidents and allegations of abuse were reported, screened, investigated and responded to. Over the course of the inspection, staff engagement and interactions with the residents were observed to be positive in nature.

There was a risk management policy in place to address the risks present to the residents, visitors and staff. The policy advised that these risks were to be recorded on the organisational risk register, and this was evident. There were arrangements in place for the investigation of and learning from adverse events.

There were systems in place and supports available to manage behaviour that challenges in the designated centre. Inspectors noted that every effort was made to identify and alleviate the cause of residents' behaviour that challenges.

Compliance Plan for Ballinvoher OSV-0001529

Inspection ID: MON-0027970

Date of inspection: 21/10/2019

Introduction and instruction

This document sets out the regulations where it has been assessed that the provider or person in charge are not compliant with the Health Act 2007 (Care and Support of Residents in Designated Centres for Persons (Children And Adults) With Disabilities) Regulations 2013, Health Act 2007 (Registration of Designated Centres for Persons (Children and Adults with Disabilities) Regulations 2013 and the National Standards for Residential Services for Children and Adults with Disabilities.

This document is divided into two sections:

Section 1 is the compliance plan. It outlines which regulations the provider or person in charge must take action on to comply. In this section the provider or person in charge must consider the overall regulation when responding and not just the individual non compliances as listed section 2.

Section 2 is the list of all regulations where it has been assessed the provider or person in charge is not compliant. Each regulation is risk assessed as to the impact of the non-compliance on the safety, health and welfare of residents using the service.

A finding of:

- **Substantially compliant** - A judgment of substantially compliant means that the provider or person in charge has generally met the requirements of the regulation but some action is required to be fully compliant. This finding will have a risk rating of yellow which is low risk.
- **Not compliant** - A judgment of not compliant means the provider or person in charge has not complied with a regulation and considerable action is required to come into compliance. Continued non-compliance or where the non-compliance poses a significant risk to the safety, health and welfare of residents using the service will be risk rated red (high risk) and the inspector have identified the date by which the provider must comply. Where the non-compliance does not pose a risk to the safety, health and welfare of residents using the service it is risk rated orange (moderate risk) and the provider must take action *within a reasonable timeframe* to come into compliance.

Section 1

The provider and or the person in charge is required to set out what action they have taken or intend to take to comply with the regulation in order to bring the centre back into compliance. The plan should be **SMART** in nature. **S**pecific to that regulation, **M**easurable so that they can monitor progress, **A**chievable and **R**ealistic, and **T**ime bound. The response must consider the details and risk rating of each regulation set out in section 2 when making the response. It is the provider's responsibility to ensure they implement the actions within the timeframe.

Compliance plan provider's response:

Regulation Heading	Judgment
Regulation 17: Premises	Substantially Compliant
Outline how you are going to come into compliance with Regulation 17: Premises: Initially a thorough clean of the identified problem areas took place. The service then reviewed the cleaning procedures in place. This review led to a number of changes in the existing procedure which are aimed at ensuring that out of sight and hard to reach areas are not overlooked during the regular cleaning routines. In addition the service will re-paint the kitchen, dining and utility rooms in Q1 of 2020.	

Section 2:

Regulations to be complied with

The provider or person in charge must consider the details and risk rating of the following regulations when completing the compliance plan in section 1. Where a regulation has been risk rated red (high risk) the inspector has set out the date by which the provider or person in charge must comply. Where a regulation has been risk rated yellow (low risk) or orange (moderate risk) the provider must include a date (DD Month YY) of when they will be compliant.

The registered provider or person in charge has failed to comply with the following regulation(s).

Regulation	Regulatory requirement	Judgment	Risk rating	Date to be complied with
Regulation 17(1)(b)	The registered provider shall ensure the premises of the designated centre are of sound construction and kept in a good state of repair externally and internally.	Substantially Compliant	Yellow	13/12/2019
